

DEEP SEA TUNA FISHING WEST OF HEBRIDES

BE ONE OF THE FIRST TO JOIN US BIG GAME FISHING ON BOARD THE ORCA III
OFF THE COAST OF THE OUTER HEBRIDES OF SCOTLAND

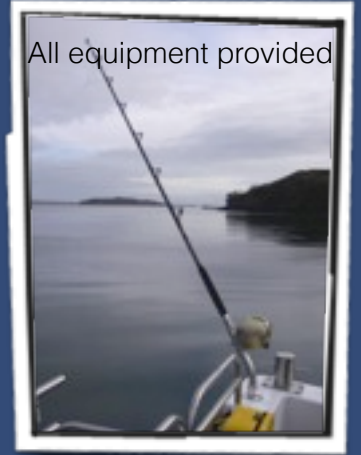

Battle with the ultimate game fish for the catch of a lifetime

Having caught the first Atlantic bluefin tuna on rod and line off the coast of Scotland in September 2013, A.M.S now offers recreational big game fishing trips.

During September and October our trips will leave daily from the Isle of Harris in the Outer Hebrides of Scotland and can cater for individual or group bookings up to a maximum of six anglers per trip.

All equipment provided

Orca III - spacious and comfortable

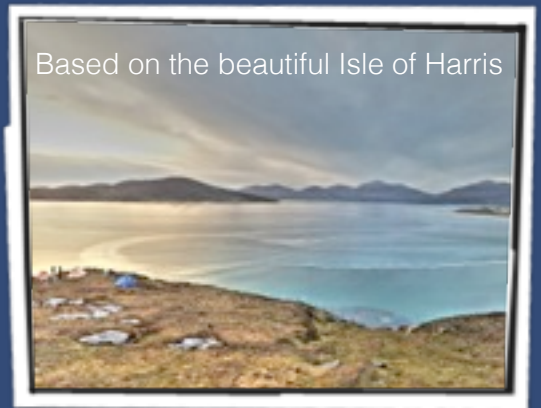

Orca III is the ultimate deep sea fishing boat. This 16 metre custom built vessel is also the only code zero catamaran in the UK. This means that it can go anywhere on the continental shelf and wherever the good fishing may be.

Our trips run on a catch and release basis. Every tuna caught is carefully unhooked, measured and/or weighed and tagged with a unique number. This information is then sent to Marine Scotland where relevant information is obtained to help in the conservation of bluefin tuna.

The price for a full day fishing trip is £240. Departing 8am and returning approximately 7pm. Gift vouchers are also available.

Based on the beautiful Isle of Harris
